Main Organizer

## Nikkan Kogyo Shimbun

The reception area is likely to be crowded. Please fill out the visitor registration card section of this invitation ticket in advance and present it at reception.

## Special Exhibition 1

Next generation automobiles with the latest highly functional materials will be displayed here! Don't miss it!

### New Fuel Cell Vehicle (FCV), MIRAI

The new fuel cell vehicle, "MIRAI", which generates electricity to power a motor on its own through the chemical reaction between hydrogen and oxygen. The high-pressure hydrogen tanks and fuel cell frame of this vehicle are made of carbon fiber reinforced plastic and other materials. Provided by: Toyota Motor Corporation

### Concept Cars

Concept cars provided by group companies of Mitsubishi Chemical Holdings Corporation. Provided by: Mitsubishi Rayon Co., Ltd. Challenge Co., Ltd.

## Special Exhibition 2

This is an exhibition section for the prize winning items of PVC Design Award.

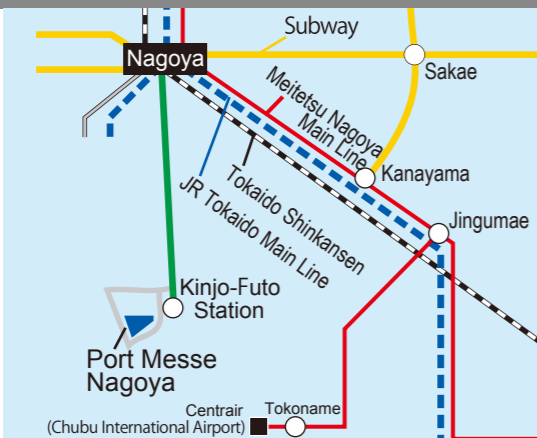

PVC Design Award is an initiative by the PVC industry, which invites design proposals and products that reflect the distinctive features of soft PVC, such as flexibility. This exhibition section will feature prize winning items up until the 4th PVC Design Award.
