

Plastics Shape the Future

Connected Technologies and Material / Product Circulation

The 33rd

# NAGOYA PLASTIC INDUSTRIAL FAIR 2021

Guide to Exhibit

Sep.29 [Wed.]  Oct.1 [Fri.]

Portmesse Nagoya (Nagoya International Exhibition Hall)

<https://nagoya-platen.com/>

# Introduction

In April 2020, the Japanese Government declared a state of emergency in response to the spread of COVID-19, and it has had a major impact on the manufacturing industry of our country. People's lifestyles are forced to change amidst the COVID-19 crisis. Adapting to the "New Normal" has become an important issue after the state of emergency has been lifted.

In order to overcome this adversity, we believe we must strengthen our international competitiveness in this new state by further enhancing our technological innovation and manufacturing skills. The Chubu region (Central Japan), where manufacturing companies and technologies gather, is expected to be the leading force to open up this new ground.

Under these circumstances, the Central Japan Plastics Federation, Central Japan Plastic Products Industry Association, and Nikkan Kogyo Shimbun will host the "Nagoya Plastic Industrial Fair 2021" for 3 days from September 29 to October 1 at Portmesse Nagoya. The "Nagoya Plastic Industrial Fair" has been held once every 3 years ever since its first show held in 1963. It is one of the biggest shows in the Chubu area focusing on the plastic industry, thoroughly covering areas from raw materials, molding machines, secondary processing machines, molding related equipment, compound equipment, 3D printers, molds, measuring devices, products to recycling technology.

In aiming to introduce our visitors to highly functional and networked machines and manufacturing technologies in which create materials and products that are compatible to a digital, sustainable, and recycling society.

Under the theme "Plastics Shape the Future: Connected Technologies and Material/Product Circulation," the latest technologies, products and services in the plastic industry will be widely exhibited. We hope that you can use it as a place to look for new business connections and expand your sales channels. We look forward to your participation.

September 2020  
Central Japan Plastics Federation  
Central Japan Plastic Products Industry Association  
Nikkan Kogyo Shimbun

## Event Outline

- Show Name** Nagoya Plastic Industrial Fair 2021
- Theme** Plastics Shape the Future : Connected Technologies and Material / Product Circulation
- Date** September 29th (Wed.) -October 1st (Fri.), 2021
- Opening Hours** 10:00-17:00 (10:00-16:00 on the last day)
- Venue** Portmesse Nagoya (Nagoya International Exhibition Hall), Third Exhibition Hall
- Organizer** Central Japan Plastics Federation, Central Japan Plastic Products Industry Association, Nikkan Kogyo Shimbun
- Supporting Organizations** Chubu Bureau of Economy, Trade and Industry, Aichi Prefecture, Nagoya City, Nagoya Chamber of Commerce & Industry (to be confirmed)  
The Society of Japanese Aerospace Companies, Japan Robot Association, Japan Auto Parts Industries Association, The Japan Society of Industrial Machinery Manufacturers, The Japan Reinforced Plastics Society, All Japan Plastic Products Industrial Federation, Association of Japan Plastics Machinery, Japan Society of Plastics Technology, Japan Precision Measuring Instruments Manufacturers Association, Plastic Waste Management Institute, The Japan Carbon Fiber Manufacturers Association, Central Japan Plastic Mold Association, Aichi Plastic Mold Industrial Association, Gifu Plastic Industrial Association, Ishikawa Plastics Evolution Cooperative (in random order, to be confirmed)
- Admission Fee** JPY 1,000 (Free for pre-registered guests, guests with invitation tickets, high school aged students and below)

### Co-located Events

- Special Seminar
- Technology Seminar
- Exhibitor Presentations etc.

# Important Information

## Exhibition Space Fee

1 Booth: W2,970mm × D2,970mm × H2,700mm  
Rate per 9 sqm. (tax included)

- Indoor Booth JPY 264,000
- Island Booth (6 + units) JPY 237,600
- Outdoor Booth JPY 132,000

## Application and Inquiry

To apply, please fill out the Application Form and send it by email to ACT INTERNATIONAL, the agent for overseas exhibitors as below.

## Overseas Agent

ACT INTERNATIONAL, INC.  
ACT Aoyama Bldg. 2A, 2-9-18  
Minamiaoyama, Minato-ku, Tokyo 107-0062  
TEL: +81-3-5770-5581  
Email: exhibition@actinter.co.jp

## Exhibitor Application Deadline

April 30th, 2021  
\*Please note that the list will be closed before the deadline once all available spaces are fully booked.

## Cancellation or Modification of the Contract

As a general rule, organizers will not accept any cancellations or modifications of the exhibit booth contract once the application is received by the organizer (or overseas agent). However, in the event that an application must be canceled, it will be accepted with the following additional fee;

Date of Cancellation	Cancellation Fee
Until June 29th, 2021	50% of exhibition space fee
After June 30th, 2021	100% of exhibition space fee

## Booth Allocation

Exhibitor booth locations will be determined by the organizer with consideration to the contents of the exhibit, past participation records, and the entire hall layout. Exhibitors will be informed of their booth location around the end of June 2021 at the earliest. Exhibitors are not allowed to sell or lend part or all of their allocated space without the approval of the organizer.

## Rental Booth Package

extra charge

This simple decoration package enables exhibitors to save exhibit costs. Please contact the overseas agent if you are interested.

- |                       |   |
|-----------------------|---|
| 1 Fascia (white)      | 1 Socket  |
| Company name plate    | Carpet  |
| 1 Information counter | 2 Fluorescent lights (40W)                            |
| 1 Folding chair       | Electrical installation fee and electricity fee (1kw) |
| 1 Business card box   | Including installation and dismantling fee            |

**JPY 81,400 per booth (tax included)**

(e.g.) If you apply for one booth with the above package, the total exhibit cost will be...

Exhibit space fee: JPY 264,000 + Rental Booth Package JPY 81,400= JPY 345,400 (tax included)

\*The package can also be applied to exhibitors with more than 2 units.  
Please contact the overseas agent for more details on the package and also for custom designed booths.

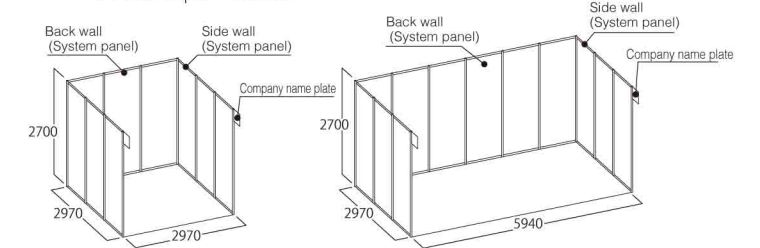

## Booth Details

### Size

Basic Booth Size  
1 Booth: W2,970mm × D2,970mm × H2,700mm

### Inline Booth

- 1) Comes with a back wall, side walls and protruding company name plates.
- 2) Back and side walls will be white system panels.
- 3) For corner booths, there will be no partition wall facing the aisle unless the exhibitor requests as such.

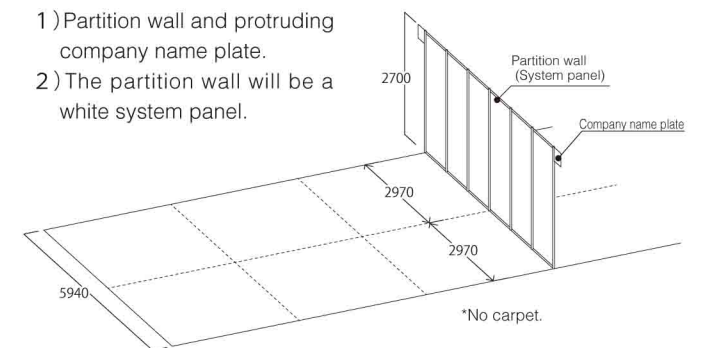

[e.g. 1 unit]  
(W2,970mm×D2,970mm×H2,700mm)  
\*No carpet.

[e.g. 2 units]  
(W5,940mm×D2,970mm×H2,700mm)  
\*No carpet.

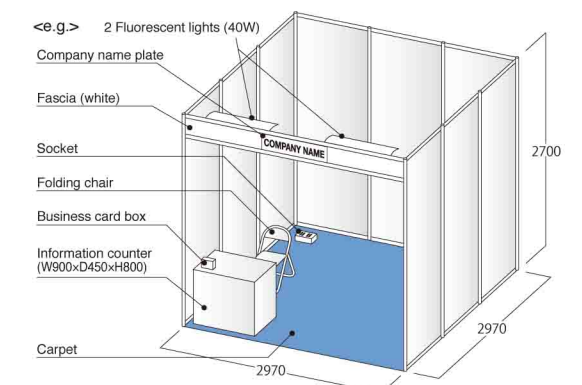

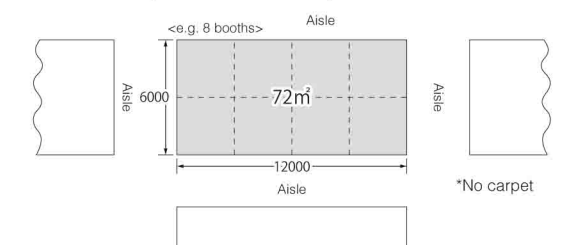

### Peninsula Booth < 4 + units >

- 1) Partition wall and protruding company name plate.
- 2) The partition wall will be a white system panel.

### Island Booth < 6 + units >

- 1) Space only, no partitions.
- 2) Protruding company name plates could be installed based on the exhibitor's request after the completion of their booth decoration.

# Exhibitor Profiles / Zoning Image

## Plastic Machines

### ● Molding machines

Injection molding machine, Extrusion equipment, Blow molding machine, Thermoforming machine (Vacuum forming, Pressure forming), Compression molding machine, Inflation molding machine, Calendaring forming apparatus, Powder molding machine, Composite molding technology, Foam molding machine, Centrifugal molding equipment, FRP molding related equipment, Stereolithography/Rapid Prototyping Equipment, and other molding machines, etc.

### ● Molding related equipment / Peripheral devices

Take-out robot, Related industrial robot, Raw material mixing/supplying equipment (Hopper, Loader, Mixer, Quantitative mixing and feeding equipment, etc.), Automatic gate cutting equipment, Monitoring system, Array apparatus, Boxing related equipment, Conveyor, Take-up/winding device, Roll temperature controller, Raw material dryer, Centrifugal extractor, Crusher/Grinder, Automatic color changing device, Degassing equipment, Gas equipment, Lubrication system, Annealing machine, Pelletizer, Pellet sorter, Foreign substance removal apparatus, Automatic release agent sprayer, Hydraulic equipment, Transport/Supply system, Computer-aided software, and other molding-related equipment, etc.

### ● Secondary processing machines

Junction device (Hot air welding machine, Heat sealer, Impulse sealer, High-frequency welder, Ultrasonic welder, Friction welder, Laser welder, etc.), Surface decoration device (Hot stamping device, etc.), Printer, Coating machine/Plating, Machining equipment (Polishing machine, Grinding machine, Cutting machine, Punching press, Deburring machine, Die cutting machine, Laser processing machine, Hole punching machine, Engraving machine), etc.

### ● Molding machine parts / Accessories

Cylinders, screws, Heaters, Hydraulic equipment, Blowers, Filters, Extruders parts/Accessories, Motors, Rolls, Nozzles, Oil cleaners, Insulating board, Connectors/Joints/Hoses, Valves, Gears, Clamps, Ball screws, Roller screws, Bolts/Nuts, Bearings, Laser generators, Robot parts, etc.

### ● Polymerization / Compound equipment

Extruder, Kneader, Granulator, Pelletizer, Pump, Compressor, Meter, Automatic weighing system, Cooler, Dryer, Various sensors, Various analyzers, etc.

## Plastic 3D Molding / Processing

### ● Molding equipment, devices, peripheral equipment / Technology

AM, 3D printer, 3D scanner, 3D CAD, Laser processing machine, Stereolithography, CT/MRT/Image processing equipment, Surface treatment, Finishing, Printing equipment, Mold making equipment/Technology, Service bureau, Lightweight structure technology, Microtechnology, etc.

### ● Materials for 3D printers

Resin materials, Ceramic materials, Metal materials, Composite/Functional materials, etc.

### ● Software

3D visualization, 3D graphic/Modeling software, CAD/CAM system, CT/MRT/Image processing system, Simulation system, etc.

### ● Evaluation/Measurement / Control devices

Three-dimensional measuring device, Simulator, Laser measuring/Calibrator, Optical measuring technology, Various sensors, Various measuring device, Display system, etc.

## Raw Materials / Additives

Resin raw materials, Recycled materials, Rubber, Compounding agents/Additives (Fillers, Flame retardants, Antistatic agents, Antioxidants, Stabilizers, Plasticizers, Colorants, etc.), Purging agents, Raw materials for high-performance plastic, Functions materials, Coating materials, Resin compounds, Foamed resins, Special purpose resins, etc.

## FRP

Carbon fiber base material (PAN type, Pitch type), Carbon fiber composite material (CFRP, CFRTP, GFRP, KFRP, etc.), FRP resin, Autoclave device, Other FRP molding machine, Flame retardant/Hardener/Filler and various additives, Processing technology for FRP (Cutting, Trimming, Drilling, etc.), Three-dimensional measuring machine, Oven/Curing furnace, FRP molded product, Finished product, etc.

## Eco-friendly Plastics (Environmental Load Reduction Materials)

- Biodegradable plastic
- Cellulose nanofiber
- Plant-based plastic
- Recycled plastic etc.
- CO<sup>2</sup> reduction plastic

## Recycling / Waste Treatment Related Machines / Devices

Plastic recycler, Waste plastic grinder/Crusher, Washing device, Sorter/Separator, Dehydrator, Drying device, Melting device, Regenerated pellet manufacturing device, Volume reduction device, Fixing device, Oil reduction device, Incineration equipment, Collection service, etc.

## Factory Equipment / Smart Factory Related Machines / Devices

Factory air conditioning equipment, Dust removal equipment, Material handling equipment, Static eliminator, Water treatment equipment, Automation systems, Blast machines, Boilers, lubricants, etc. Production management/Systems, Communication equipment/Systems, Factory energy, Development support software, Service, etc.

## Measuring Devices / Control Devices

Thickness gauge, Dimensional measuring device, Thermometer, Hygrometer, Hardness meter, Viscometer, Pressure gauge, Moisture meter, Hydrometer, Spectrophotometer, Colorimeter, Torque rheometer, Various testing machines, Inspection equipment, Coordinate Measuring Machine, Controller, etc.

## Mold Related Equipment / Materials

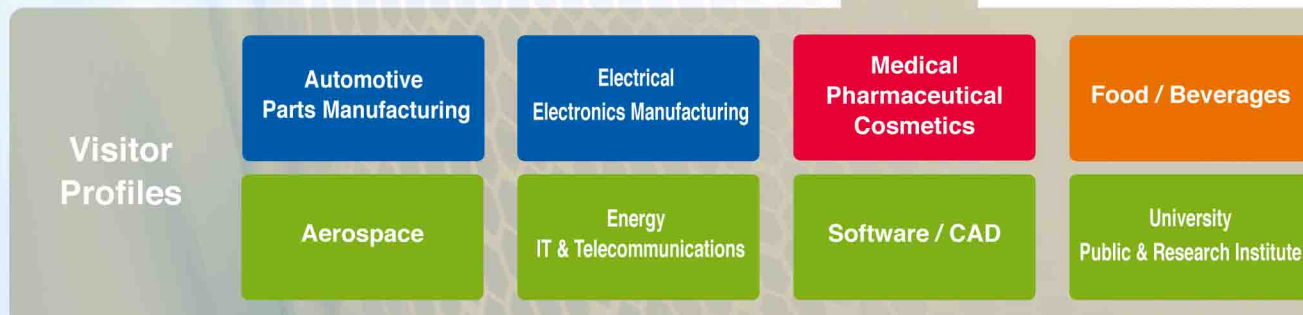

Molds, Mold parts, Mold processing machines, Mold temperature controllers, Hot runner devices, Mold materials, Mold processing machine tools, CAD/CAM, Mold sensors, Mold design software, Storage shelves, etc.

## Products

Daily necessities, Office supplies, Electric parts, Automobile parts, Industrial products, Ultra-precision molded products, Industrial materials, Civil engineering/Building supplies, Packaging supplies, Medical/Safety supplies, Energy related parts, Information and communication equipment related parts, Optical parts, Decorations/Advertising products, Tubes/Hoses, Plates, Sheets, Tubes, Rods, Profiles, Films, Adhesives/Solvents, Anti-virus products (Face shields, Acrylic partitions, Masks, Protective clothing, Protective goggles, Non-contact items), Other plastic related products, etc.

## Others

Press, Book, Research, Consulting, Data, etc.

## About the Show

- The 33rd edition of the largest plastic exhibition in the Chubu region held once every three years.
- Expecting a unique range of visitors from the center of the manufacturing industry in Japan, the Chubu region.
- Organized by major plastic associations in the Chubu region, introducing new technology, products, and services.

## Why Exhibit?

- Links to exhibitor websites, providing detailed information to the visitors.
- Exhibitor interviews and serializations published on newspapers before the show by the organizing media company (for more details, please refer to show promotion).
- Exhibitors can make business presentations directly to the visitors (extra charge).

## Co-located Event

We will organize and conduct special seminars based on themes that meet the demand of the times. We aim to attract high quality visitors by widely transmitting the hottest information of the plastic industry.

The number of exhibitors in 2018: 123 companies / organizations, 465 booths

## Visitor Survey Results of 2018 (Previous Show) Total Visitors Over 3 days: 18,662 (Including the Co-located Show)

### Visitor Occupations

### Visitor Industries

## Optimal Use of the "Daily Industrial News" Media for Promotion

Optimization of not only the "Daily Industrial News" but also various other mediums to attract high quality visitors.

Exhibitor interview articles in addition to special features on the show (only selected interviews will be printed).

Invitations sent to domestic and foreign related companies and organizations included on the DM list of the Daily Industrial News (approx. 200,000 invitations).

We will encourage more visitors with the use of various other tools!

Advertisements in public transportation  
 - Posters hanging on the Nagoya Municipal Subway  
 - Advertisements in JR Tokai (Central Japan Railway) trains  
 - Posters at JR stations

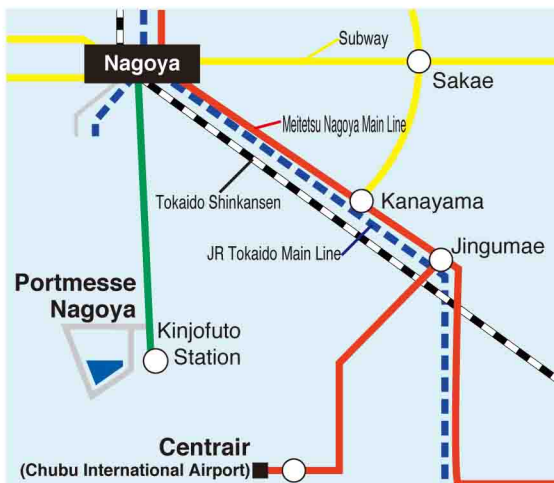

Articles and advertisements published periodically on industrial magazines.

### Exhibitor introductions on the official website

Introductions to all exhibitors and links to company websites will be displayed on the official event website, providing detailed information on its participants.

### Access

### Exhibition Schedule

April 30th	Exhibitor application deadline
Late August	Final deadline for various documents
September 26th through 28th	Delivery and installation of exhibits
September 29th through October 1st	Event
October 1st through 2nd	Dismantling and removal of exhibits

■ Exhibitor application deadline: April 30th, 2021  
 Please note that the list will be closed before the deadline once all available spaces are fully booked.
